

SWITCHBLADE™

Variable Speed Professional Clipper
The Power of Perfection

The "MEDALLION SERIES" is the next generation of professional clippers designed to raise the standard in professional clipping.

The SWITCHBLADE™ was design engineered to be more powerful, efficient, and balanced with a "REVOLUTIONARY" linear drive system and an easy 4-step drive tip replacement.

A new level of American Ingenuity

The "MEDALLION SERIES" by Wahl

Kit includes:

Professional variable speed rotary motor animal clipper with 16 foot heavy duty grounded power cord, Competition Series size #10 (1/16" 1.8mm) detachable blade set, drive tip removal tool, 2 extra replacement drive tips, cleaning brush, lubricating oil, English, Spanish, and French instruction book.

The SWITCHBLADE™ by Wahl is a Professional Clipper that is astonishingly more powerful and efficient. The lightweight, balanced design allows you to quickly maneuver the clipper easier. The housing is resistant to chemicals and less vulnerable to breakage.

Wahl Switchblade™ has a revolutionary linear drive system. An easy four-step drive tip replacement, a no gear direct drive rotary motor, with the 1 year warranty and a 30 day satisfaction guarantee! The Switchblade™ has the quality you expect from Wahl.

Plus variable speed control, curved casing to allow hair to separate and fall away from clipper, 16' heavy duty power cord, universal input for international use, soft rubber grip and other production features that professionals require.

The Wahl Switchblade™ works with the full line of Competition Series detachable blade styles. This premium quality precision ground high-carbon steel blade has long lasting durability and will stay sharp longer.
